Attachments: CFAC Bkg SAP Comment Follow-up_7-16-18.docx

David,

Per last Thursday's call, the attached document provides the additional comments we discussed on the draft Background Investigation SAP for Columbia Falls. You will notice there is a comment in yellow that is a placeholder pending discussion with Brian re: the proposed approach for ecological receptors with small home ranges. *[Brian – Let me know your availability to discuss...]*

I haven't had a chance to digest the new responses Roux provided earlier today. I'll let you know if there are any additional comments that need to be added to this document based on this review.

Please feel free to incorporate your edits/comments as tracked changes in the Word document as appropriate.

Thanks,
Lynn
